Work Experience

API Rails Developer

MetroMart Technologies Inc. - Makati

November 2022 to April 2023

As an API Rails Developer, I played a pivotal role in my position by addressing bugs, implementing new features, and optimizing legacy code. I actively contributed to the enhancement and maintenance of the codebase, showcasing my proficiency in troubleshooting and my dedication to continuous improvement.

Ruby on Rails Developer

PCMD - Australia - POEA

March 2022 to September 2022

Proficiently utilizing a tech stack encompassing Heroku, RSpec, Ruby, PostgreSQL, Ruby on Rails 7, and Tailwind for a Business Intelligence Dashboard within a construction firm platform. In my capacity as a Full Stack Rails Developer, I am dedicated to supporting the platform's continuous improvement through adept bug fixing and the seamless integration of new features. My role involves a dynamic blend of technical skills and a commitment to enhancing the overall functionality and user experience of the project.

Software Engineer

Sprobe - Cebu

December 2020 to February 2022

Steering the operations of an Advertisement SaaS Rails Application for a Japanese client, specializing in batch processing distributions. Leveraging a robust technical toolkit that includes AWS, Docker, and expertise in Testing (Minitest & RSpec). Additionally, actively involved in project planning and contributing to the daily Scrum process, ensuring seamless integration of technical solutions within the project's framework.

Ruby On Rails Developer

Neosis Ltd - Puerto Princesa

April 2017 to December 2020

Proven expertise as a Full Stack Developer, specializing in backend technologies. Proficiently utilizing a diverse technology stack, including Ruby on Rails, Payment gateways (PayPal, Stripe), Javascript (jQuery), MySQL, PostgreSQL (DB Production), SQLite (DB Development), HTML, CSS, VPS (Deployment Server), Heroku, Nginx (Production Web Server), Phusion Passenger (Production Web Server), Linux and macOS environments, Git, Capistrano (deployment), Sublime Text Editor, Bootstrap Framework (Paid Theme Integration), Tailwind CSS, and Business Intelligence Dashboard. Known for developing clean, scalable, and feature-rich backend applications, with a focus on seamless integration of Paypal and Stripe Payment systems.

PHP Developer (Wordpress)

Tezoro - Puerto Princesa
May 2015 to March 2017

Engaged in the development of client websites through the WordPress platform. Specializing in web-based applications, with a focus on utilizing the WordPress web framework. Additionally, adept at creating custom plugins and implementing theme modifications to enhance and tailor the overall website experience.

Freelance C# Programmer

College Student - Puerto Princesa
June 2013 to April 2015

As a Freelance C# Programmer, I actively undertake projects such as thesis systems, assignments, and projects for students and classmates within the school campus. Proficiently utilizing Visual Studio Code as my Integrated Development Environment (IDE), I specialize in the development of software-based applications with MySQL databases.
